

# Senior Software Developer (all genders)

BRING YOUR TALENT TO THE TECHNOLOGY BEHIND TRAVEL

**Please note: Non-EU citizens need to have a work permit.**

The conditions for this job do not meet the requirements for an EU Blue Card.

GIATA is the international market leader in the travel technology sector, headquartered in Berlin. We are looking for a competent and passionate person to strengthen our developer team as soon as possible.

We have been supporting our customers in increasing the growth of both their company and their sales since 1996. Although our methods are complex, our goal is simple: increasing the sales of their products.

As the leading provider of hotel data for the tourism industry, our employees are continuously setting new standards for the processing and marketing of travel offers and hotel content.

**We are looking for a Senior Software Developer (all genders) to strengthen our team**

## Your role:

- Leading technical role in building our new software architecture
- Technical sparring partner for developers
- Optimisation of software development processes
- Development of highly scalable and state-of-the-art software components for our B2B2C solutions
- Plan and carry out code reviews
- Support the optimisation of product development methods (SCRUM)

## What we expect from you:

- University degree in computer science, a satisfactory qualification as an IT specialist (application development), an equivalent qualification or extensive practical experience
- Excellent knowledge of the development of scalable web applications as well as the design and structure of microservice-oriented software architectures
- A strong interest in new technology and challenges as well as the willingness to contribute and share knowledge
- Extensive knowledge of this technologies and methods currently used in the company:
  - Web Services/Microservices: PHP, NodeJS
  - Databases: MySQL, PostgreSQL,
  - Unit and integration tests
  - GIT, Jenkins
  - Docker
- Analytical and structured approach
- Entrepreneurial way of thinking and goal-oriented working
- High degree of personal responsibility and independent approach to work
- Strong service mentality
- Excellent communication skills
- A team player who happily shares their knowledge and insights with others
- Strong customer orientation (internal and external customers)
- Proficiency in German and English (fluent)

### The following are desirable, but not essential:

- Web Services/Microservices: Typescript, Swagger
- Search, Cache: MongoDB, Elasticsearch, Redis
- Frontends: HTML, CSS, Javascript (Angular, React)
- Kafka, RabbitMQ
- Bamboo
- Kubernetes, AWS
- Grafana, ELK-Stack, Nagios
- Ansible

### What we offer you:

- A workplace in Berlin-Kreuzberg, directly on the river Spree; flexible working hours (40 hours per week) Good working atmosphere, flat hierarchies
- Excellent IT equipment
- Support for your professional development
- Flat hierarchies and a good working atmosphere
- Coffee, tea and fresh fruit in the office

If this appeals to you,  
we look forward to receiving your detailed application **by email only** at: [jobs@giata.com](mailto:jobs@giata.com)

Please attach your documents (cover letter with salary expectations and preferred start date, curriculum vitae, references) as a PDF file.

Your contact person: Ms. Soualmi  
We look forward to meeting you!
